SUOMEN ILMASTOINTITUKKU OY

Ilmastointitukku (**IT**) has started the wholesale trade in 2004.

ETS Nord was founded in 1998, and is situated in Tallinn.

Urmas Hiie is the major shareholder in ETS and Seppo Putkonen is the minor.

They both have years of experience in contracting, wholesales, importing and manufacturing.

Seppo is a HEVAC engineer. He has worked in contracting for over 12 years in the biggest wholesales company in Finland in different jobs and representatives of Novenco in Finland.

Urmas is a civil engineer (MsC. Eng) and has been a manufacturer and a contractor since the beginning of the Estonian independency. He also has a contracting company called Hiieko As.

ILMASTOINTITUKKU OY

Summary

We manufacture all type of duct components, outdoor louvers, grilles and diffusers as well as air intake and exhaust units and diffusers and roof top covers.

In the future we will have also stainless steel hood, plenum boxes with balancing and measurement possibilities and roof top exhaust fans.

Our production has a target to manufacture world class products which full fill all requirements in Finnish market. With our modern and wide range of machinery, together with motivated personnel we can make our products from different material starting from galvanized steel to aluminium and stainless steel.

We have 108 workers in our factory.

Imported products are mainly different types of fans!

We can provide balancing and measurement services.

Try us - You will not be disappointed!!!
